All,

The attached paper was prepared by OAR to try to explain to the public why they may be detecting odors and what if anything could be associated with the oil spill.

Note that the paper mentions that EPA will be monitoring for SVOCs. Region 4 has started their SVOC air monitoring, however, we are still coordinating that portion of the sampling.

Maria

Subject: Odor Document

Carol,

Here is the final odor document. It has been cleared through OAR. I believe it is supposed to go up on the web, but I haven't seen it yet.

Maria and Ruben, please let me know if I should send this to anyone else in Region 6.

thanks,
Kelly
